10 The Tenth Annual INDIA CHEMICAL INDUSTRY OUTLOOK CONFERENCE

Innovation & Disruption : Chemical Industry in Transition

13 - 14 February 2017 ■ Hotel The Lalit ■ Mumbai

About the Event

Peter Drucker said: **“Innovation is the fuel of corporate longevity. It endows resources with a new capacity to create wealth.”**

ICC has planned the 10th India Chemical Outlook Conference with Innovation & Disruption as a key theme and how this would impact the growth of the Chemical Industry,

Innovation as we know has many facets – this conference brings to fore all aspects of innovation and how it would help us create the best in class environment to take our industry to the next level.

Innovation through high throughput research to be first in the marketplace. The conference would cover the European experience. In today's world speed is the essence and innovations often cannot be done all in house. Collaboration would enable organisations to bring out the best. Open innovation centres often help in speeding up work. There would be opportunity to hear global experiences and views.

For creating an environment of innovation People and Process are important. The conference would delve on building talent engine for growth and on the incentives that could drive this.

Digitization cloud computing advanced analytics and cyber security have become key elements of the growth engine of the chemical industry The conference covers all topical subjects and aims to bring to you the very latest in the industry.

We are happy to announce the 10th edition of the Annual India Chemical Industry Outlook Conference. It is the Leading event for the chemicals industry in India, both in terms of Indian and international participants. The event, which was attended by more than 250 senior participants in 2016, brings growth and investment opportunities to the forefront. It also establishes a platform for leaders of private sector companies, public sector units, government bodies, experts and investors to interact on these opportunities.

USA

ICC
Indian Chemical Council

Indian Chemical Council (ICC) was established in the year 1938 to promote the interests of the nascent Indian chemical industry. Pioneers of the chemical industry in India such as Acharya P. C. Ray brought together a group of industrialists including Rajmitra B. D. Amin and founded this national association.

What began as a vision, emerging from foresight and aspirations of the founding members, became the Indian Chemical Manufacturers Association (ICMA) and was subsequently rechristened as Indian Chemical Council (ICC). It has become the representative body of chemical industry in India and includes members both Indian companies as well as of multinational companies operating in India.

North East Process Industry Cluster (NEPIC) is a leading cluster where there is concentration of chemical industry. Its members are chemical, petrochemical, polymer, speciality chemical, fine chemical, renewable materials and energy companies. Role of NEPIC industry leadership team is to "Provide industry leadership to define and prioritize what is needed to sustain existing and attract new process industry to North East England".

McKinsey & Company

McKinsey & Company is a management consulting firm that helps leading corporations and organisations make distinctive, lasting and substantial improvements in their performance.
