# 6 The Sixth Annual India Chemical Industry Outlook Conference

VISION FOR THE CHEMICAL INDUSTRY – FUTURE CHALLENGES AND OPPORTUNITIES FOR GROWTH

7- 8 March 2013 - Taj Mahal Hotel, Mumbai.

ICC  
Indian Chemical Council

**Indian Chemical Council (ICC)** was established in the year 1938 to promote the interests of the nascent Indian chemical industry. Pioneers of the chemical industry in India such as Acharya P. C. Ray brought together a group of industrialists including Rajmitra B. D. Amin and founded this national association.

What began as a vision, emerging from foresight and aspirations of the founding members, became the Indian Chemical Manufacturers Association (ICMA) and was subsequently rechristened as Indian Chemical Council (ICC). It has become the representative body of chemical industry in India and includes members both Indian companies as well as subsidiaries of multinational companies operating in India.

## North East Process Industry Cluster

(NEPIC) is a leading cluster where there is concentration of chemical industry. Its members are chemical, petrochemical, polymer, speciality chemical, fine chemical, renewable materials and energy companies. Role of NEPIC industry leadership team is to "Provide industry leadership to define and prioritize what is needed to sustain existing and attract new process industry to North East England".
