5. [Transportation](#)

III caveat

The information herein is presented in good faith, is believed to be accurate and reliable, but may well be incomplete and /or not applicable to all conditions or situations that may be encountered.

No representation, guarantee or warranty is made as to the accuracy, reliability or completeness of this report, or that the application or use of any of the information, analysis, methods and recommendations herein will avoid, reduce or ameliorate hazard, accidents, losses, damages or injury of any kind to persons or property. Readers are therefore cautioned to satisfy themselves as to the applicability and suitability of said information, for the purposes intended, prior to use.

5 **Transportation**

- Transportation of phosgene on- or off-site by rail or road is not advisable.
- A phosgene production unit integrated into the phosgene-consuming plant will reduce the likelihood of a release
- When transporting laboratory scale quantities of phosgene or phosgene solutions, special precautions may need to be taken.
