

ABOUT THE COURSE:

Sustainability is increasingly critical to ensuring future growth and survival of the chemical industry. One of the tools for achieving sustainability is the paradigm of Green Chemistry. This course will provide a practical introduction to the approach of Green Chemistry and various tools and strategies to processes in the Chemical industry. The course structure and syllabus has been thoughtfully designed with inputs from senior professionals from the Indian chemical industry in order to make it relevant to the ground realities of chemical operations in India.

TOPICS TO BE COVERED:

- Course Introduction
- Course Briefing
- What is Sustainability in Chemical Industry
- 12 Principles of Green Chemistry
- Tools to achieve Green Chemistry
- Implementation of Green Chemistry & Case Studies

The programme of course will be sent to you shortly.

WHO SHOULD ATTEND:

R&D heads, Safety heads, Chemists, Chemical Engineers and others from the chemical industry with an interest in green chemistry and sustainability. Students and academics are also encouraged to attend.

CERTIFICATION:

At the end of course, an Assessment Test will be conducted and on successful completion of the test, Certificate of course completion shall be provided to the participants.

REGISTRATION FEES:

→ **ICC Members:** Rs. 3,500/- plus 18% GST per delegate
