

**Virtual Workshop on  
"NAVIGATING FREE TRADE AGREEMENTS (FTAs) FOR THE INDIAN CHEMICAL &  
PETROCHEMICAL INDUSTRY"  
on 18th June 2026**

Dear Sir / Madam,

Greetings from the Indian Chemical Council (ICC)!

You may be kindly aware that ICC is the Apex National Body representing more than **80% of India's USD 235 Billion Chemical and Petrochemical Industry**. ICC represents India as the national body in the **International Council of Chemical Associations (ICCA)** as a Full Member.

Established in 1938, ICC is dedicated to the growth of the Indian Chemical Industry and has grown over the years, in its functions and offerings to cater to the varying needs of the Indian Chemical Industry.

We are happy to inform you that the Indian Chemical Council is actively working to help the industry capitalize on global trade opportunities emerging through various Free Trade Agreements (FTAs).

India is rapidly expanding its global footprint through key FTAs such as the India-Australia Economic Cooperation and Trade Agreement (ECTA), India-UAE Comprehensive Economic Partnership Agreement (CEPA), India-United Kingdom Comprehensive Economic and Trade Agreement (CETA), recently concluded negotiations with the European Union, and ongoing negotiations with Canada, New Zealand, USA, etc.

Operating within a complex global supply chain of chemicals requires a deep operational understanding of tariff structures, product classification rules, Rules of Origin, and compliance frameworks. To bridge the gap between policy and practical implementation, ICC is organizing a comprehensive:

**Virtual Workshop**  
**on**  
**"NAVIGATING FREE TRADE AGREEMENTS (FTAs) FOR THE**  
**INDIAN CHEMICAL & PETROCHEMICAL INDUSTRY"**  
**on**  
**Thursday, 18 June 2026**  
**From 11.00 a.m.**

**OBJECTIVES:**

The Key Objectives of the Workshop are:

- To provide participants with a practical understanding of FTAs and their implications on the chemical and petrochemical sector.
- To deliver actionable insights on HS Codes, Rules of Origin (RoO), CAROTAR 2020 framework, and Product-Specific Rules (PSRs).
- To help businesses strategically align sourcing, exports, and global supply chain decisions with emerging trade opportunities.

- To understand the impact of investment liberalization and regulatory frameworks on the chemical industry.

### **TOPICS COVERED :**

The topics covered for the Workshop are:

- The Foundation of Free Trade Agreements
- Navigating the Chapters of an FTA
- Investment Liberalization & the Indian Chemical Industry
- Leveraging FTAs for Market Access

### **TARGET AUDIENCE:**

Executive leadership and operational heads across the chemical, petrochemical, and allied manufacturing ecosystem are encouraged to participate. The program is specifically designed for CEOs, Corporate Strategists, Corporate Affairs Officials, Regulatory Compliance Officers, Taxation/Customs Managers, and professionals handling EXIM, Logistics, Supply Chain, and International Business Development functions.

### **REGISTRATION DETAILS:**

Interested participants are requested to register through the following registration link:

[https://icc.zivents.com/form/evt\\_20260601\\_141829/delegate](https://icc.zivents.com/form/evt_20260601_141829/delegate)

Please note that the joining link for the virtual workshop will be shared only with registered participants upon confirmation of their registration through the above registration form.

Kindly note that there is **no registration fee** for participation in the workshop.

For any further information or assistance, please contact:
