

**Prof. Sharad M. Sontakke**  
PhD, Chemical Engineering, IISc, Bangalore  
Associate Professor  
Department of Chemical Engineering, Birla  
Institute of Technology and Science, K K Birla  
Goa Campus, Goa

**Research Experience:** 13 years

**Patents:** 0    Granted: 0    Applied: 0

**Research Focus:**

- Development of metal oxides, metal organic frameworks and composite materials
- Water treatment using adsorption and photocatalysis
- Development of materials for carbon capture

**Technology Licensed:** NA

**Interested Industry member kindly connect through:**

**Email Id:** [icc-industryacademia@iccmail.in](mailto:icc-industryacademia@iccmail.in)

### **Technologies (Proof of Concept- POC): TRL level.....**

- Photocatalytic degradation for water pollutants (TRL 3-4)
- Extraction of silica from rice husk ash (TRL 7)

### **Technologies under development:**

Development of composite materials for water treatment and post-combustion carbon capture.

### **Targeted Industries:**

Leather, Tanning, Dye manufacturing, Textile, Thermal power plants, Cement manufacturing.
